Dear ACFAS Pacific Region Members,

I am writing to express my interest in serving as the Vice President of the ACFAS Pacific Region. As a current fellow at the Silicon Valley Comprehensive Foot & Ankle Surgical Fellowship, I am excited for the opportunity to become more involved in regional leadership and to give back to an organization that has played an important role in my professional development.

Research, education, and mentorship have been central to my training and career thus far. I was fortunate to have the opportunity to present research nationally through ACFAS, most recently receiving Third Place for my manuscript at the 2026 ACFAS Annual Scientific Conference. I have also enjoyed mentoring students and residents, presenting lectures, and contributing to projects that help advance our specialty. These experiences have shown me how meaningful regional support can be for trainees pursuing research and professional growth.

If elected Vice President, I would be committed to supporting the Pacific Region's educational initiatives, promoting research opportunities, and encouraging as well as cultivating active involvement among students, residents, and fellows. As someone who has directly benefited from exceptional guidance and mentorship throughout my training, I am passionate about helping create meaningful opportunities for the next generation of foot and ankle surgeons while contributing to the continued growth and success of our region and profession as a whole.

I would be honored to serve the members of the ACFAS Pacific Region and contribute to the College's mission of advancing education, research, and the highest standards of patient care. Thank you for your time and commitment to our profession, I appreciate the potential opportunity to be fulfill such an important leadership role.

Thank you for your consideration,
