

Hello ACFAS Pacific Region Members,

I am honored to be considered for a leadership role within the ACFAS Pacific Region. As a fellowship-trained foot and ankle surgeon practicing in an academic residency setting, I have developed a deep appreciation for the importance of education, mentorship, research, and service to our profession. Throughout my training and early career, ACFAS has played a significant role in my professional development, and I welcome the opportunity to give back to the organization that has invested so much in surgeons like me.

My experiences in fellowship, research, and resident education have reinforced the value of collaboration and lifelong learning. Whether supporting research initiatives, helping develop educational opportunities, mentoring students and trainees, or contributing to the operational needs of the Region, I am committed to serving with professionalism, integrity, and enthusiasm. As an early-career surgeon, I hope to bring energy, accessibility, and a collaborative approach while helping strengthen connections among students, residents, fellows, and practicing members throughout the Pacific Region. I believe strong regional leadership is built on listening, collaboration, and creating opportunities for others to grow, and I would be excited to help advance those goals.

I would be grateful for the opportunity to serve the Pacific Region in whichever role the membership believes I can make the greatest contribution. Thank you for your consideration, and I look forward to the opportunity to support our members and help further the mission of ACFAS.

Thanks,

AJ
